The School

Founded in 1950 as the Dallas region's first co-educational independent school, Greenhill prepares and inspires students to lead authentic, purposeful lives by teaching them to embrace complexity, act with integrity, celebrate the power of difference, and excel in new ways. Greenhill is accredited by the Independent Schools Association of the Southwest and is a member of the National Association of Independent Schools.

Program & Calendar

Greenhill's school year is divided into two academic terms. In general, students take five core academic classes plus electives each semester. First-semester grades are available in January.

Community Service

Upper School students are expected to complete 18 hours of community service during grades 9 and 10 and 24 hours during grades 11 and 12, for a total of 42 hours.

Special Opportunities

Capstone projects provide a small group of selected seniors with the opportunity to explore deeply an area of intellectual interest. A yearlong project involving intensive, independent research culminates in a final presentation and written work.

Greenhill is a member of **Global Online Academy (GOA)**, a consortium of the world's leading independent schools whose mission is to translate into online classrooms the intellectually rigorous programs and excellent teaching of its member schools.

Statement on Discipline

It is Greenhill School's policy to report violations of school rules that result in suspension or expulsion to colleges or other educational or extracurricular programs if that information is requested in the application.

Greenhill's expectation is that students will answer questions about their disciplinary history honestly and faithfully report this information when it is requested.

Curricular Notes

Greenhill's curriculum is college preparatory. Students take a balance of core academic subjects, arts, and physical education, as well as participate in community service.

Little curricular acceleration is available in grades 9-10, particularly in English, history/social sciences, Latin, and Chinese.

Students are limited to a maximum of three AP courses per year in 11th and 12th grades. A small number of 9th and 10th graders will qualify to take one or two AP classes, based on specific qualifications and only in selected subjects.
